

# HOW TO OPERATE A FIRE EXTINGUISHER

## Procedure

When operating a fire extinguisher in an emergency, don't forget to **PASS** and call **911**:

### Pull

**P** Pull the pin. There is a small pin that prevents the fire extinguisher from accidentally being used. Pull the pin out and continue on to the next step.

### Aim

**A** Aim the nozzle of the fire extinguisher low at the base of the fire.

### Squeeze

**S** Squeeze the handle to discharge the extinguisher at the fire

### Sweep

**S** Sweep from side to side, keeping the extinguisher pointed at the base of the fire until the fire is extinguished.

**BE AWARE AND  
STAY SAFE!**
